Judy Security

Security training that sticks.
Judy makes it easy.

Meet Judy
(and get your team working safer and smarter).

She's your virtual cybersecurity solution, and the heart (and brains) of our platform. Judy's cybersecurity awareness training features engaging, 3 to 4-minute, Hollywood-style, micro-learning videos to empower individuals and organizations to become defenders against cyber threats and stay compliant. Give you team the tools and knowledge that they need (and that they'll retain) to avoid causing a breach that could affect your entire organization.

Security Awareness Computer-Based Training Market

(4.9 out of 5 stars based on 143 reviews.)

Engaging Content
Your team will look forward to their monthly learning break with fun, 3 to 4-minute micro-learning episodes to help them avoid the latest threats.

Real-World Incidents
Every episode is based on a real company that has suffered a significant breach. We focus on a single attack vector so we don't overwhelm your employees with technical terms.

Gamification
Competition encourages engagement. Employees who complete episodes quickly and pass the quiz the first time earn more points & secure a top spot on the leaderboard.

Phishing Simulations
Test and quantify your team's vulnerability safely and proactively by sending phishing attacks based on real incidents.

Your team is the first line of defense against cybercrime.

Judy's Security Awareness Training helps to create a culture of cybersecurity awareness to help your business meet compliance & prevent breaches due to human error.
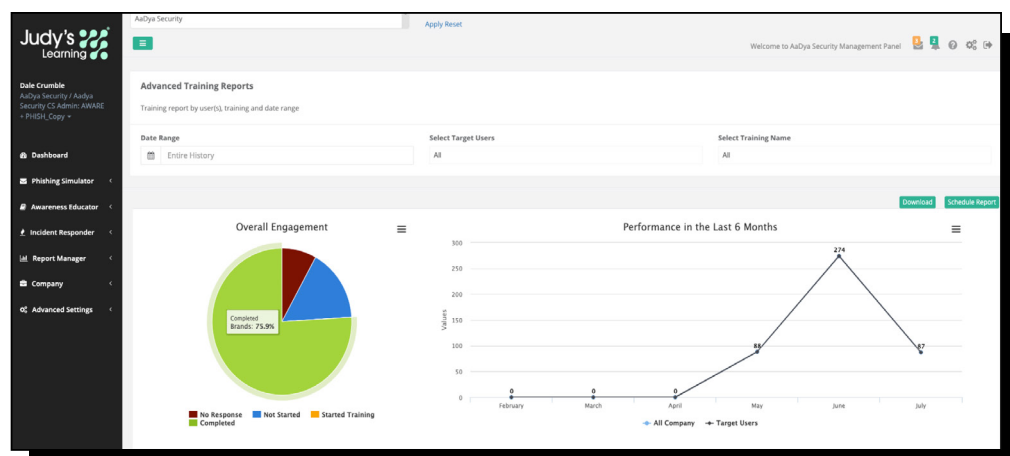

Human error—which accounts for almost all cybersecurity breaches—is impossible to address when your team is not engaged in training. Judy's Security Awareness Training uses storytelling, animation and phishing simulations based on real-world incidents to create content your team will actually look forward to.

Ramp up your security with lessons that stick.

Our videos connect with your team on an emotional level to keep them engaged until the very end, increasing retention and ultimately leading to behavioral change and fewer breaches.

Your team will look forward to our monthly 2-4 minute episodes based on real companies and real incidents.

Get up and running within 24 hours.

We make it easy to get your team off and running right away. And to ensure your success, our interactive dashboard makes it easy to launch your campaigns and monitor your teams progress and participation.
